Dr. Joshua Lederberg  
Department of Genetics  
Stanford University Medical School  
Stanford, California

Dear Dr. Lederberg:

We are nominating our colleague, Dr. A. G. Marr, for the Eli Lilly Award in Bacteriology. We are not too familiar with his accomplishments on the N.A.S.A. Committee and thought that these might be pertinent to his nomination. If you feel that this would be of significance, we would greatly appreciate it if you would write a letter to Dr. E. M. Foster supporting Dr. Marr's nomination. An original and four copies should be sent. In any case, we would be interested to know your reaction to our proposal.

Best regards.

Sincerely yours,

Robert E. Hungate  
Chairman
